

# StitchCraft

## TAILORED SKIRT

Workshop duration .....	2 x 5 hours
Level of skill required.....	Intermediate to advanced – <b>not for beginners</b>
Participants to bring.....	Pattern for skirt (the instructor will advise suitable options) Pattern trace Fabric Lining (requirements will be discussed in first class) Interfacing (requirements will be discussed in first class) Matching thread Contrasting thread (for tacking)
Other tools required.....	Sewing machine and accessories Tape measure, pins, needles Pen/pencil for marking pattern Fabric marking pen Cutting shears or rotary cutter

### What will you learn?

- How to take accurate measurements and then make pattern adjustments to suit your body shape
- How to change your basic patterns to add an inserted band which will be embellished
- How to create a tailored walking vent in the back of your skirt
- How to determine appropriate choice of interfacings and lining to create a well-structured garment

The emphasis will be on using constructions techniques that produce professional results and introducing design elements that make your garment unique.

**Some homework will be required to complete project.**
